STUDY INDIA PROGRAMME

Transforming Education Transforming India

Welcome to India. A Country where history, culture, colors, cuisine and nature exhibit more diversity than nearly anywhere else in the world. A country of amazing paradoxes, where bullock carts and jets co-exist in perfect harmony. Modern India is a shining example of robust economic growth in a democratic setting.

The only way to begin to understand Asia's and India's influence in the global economy is to visit the region, meet its corporate executives and experience its long history and rich culture first-hand.

Lovely Professional University, India's Largest University offers the rich India Experience on a global platform through its unique **Study India Programme (SIP)**. This programme has been developed as LPU strongly feels that the future is a world filled with inter-culturally competent leaders who have both the understanding and skills to effectively, humanely, and positively navigate across different cultures, in politics, education and business.

Through SIP, students will gain international experience in India and develop an appreciation of the cultural dimensions of doing business in India. Study India Programme may also enable students to earn credit towards their current degree.

The customized Study India Programme is based on the information provided by the Foreign Universities to the University. The duration of the study tour may range from 15 to 20 days and the size of the batch may vary from 15 to 30 participants. Students will have the opportunity to visit key corporate offices, industrial parks, and historic sites, in addition to meeting with leading academicians and entrepreneurs. The tour will cover major cities of India such as New Delhi, Chandigarh(Punjab), Amritsar (Punjab), Agra (Uttar Pradesh) or any other city as per the programme requirements. The Study India Programme will expose participants to the global cultural and business environment, so that they can see first-hand how fast-growing economies in developing countries provide opportunities for international businesses.
