## Online Education

1. Does all programs/courses were completed on time.	Yes
2. Measures taken to complete the syllabus of courses and programs.	<p>Globalization of education has set competitive benchmarks for higher education institutes to meet the expectations of ever evolving and academically challenging environment. The unprecedented situation created by the onset of COVID-19 brought almost everything to standstill. The pandemic of COVID-19 led to one of the biggest disruptions in the history of modern day education system threatening the careers of entire generation and erase their decades of hard work and progress. Just days ahead of the announcement of the national lockdown; LPU had already shifted from the conventional teaching-learning system to completely online mode. To comply with this new normal hence following measures were undertaken to ensure unhampered and qualitative academic progression of the students as per the Academic Calendar</p> <p>1.University Management System (UMS): In existence for more than a decade now, UMS is the hallmark of LPU's aggressive commitment towards using ICT tools for developing tech-savvy academic environment. Developed in-house, UMS offers a seamless interface for delivering academic, co-curricular and assessment &amp; evaluation related services between the students and the faculty.</p> <p>2.LPU-MyClass: A state of the art interface offers a world-class learning environment which is uncompromisingly as good as physical teaching used in conventional methods. Some of the prominent features of this platform which makes it best in class include:</p> <ul style="list-style-type: none"> <li>•Live video/audio lectures,</li> <li>•Whiteboard to replicate the conventional whiteboard used in physical classrooms,</li> <li>•Lecture recordings,</li> <li>•Chatbox for lecture related queries/doubts.</li> <li>•Polling interface to enhance student participation.</li> <li>•Presentation/Screen sharing feature for the students and the faculty</li> </ul> <p>3.LPU LIVE: This is another tech-savvy and futuristic application developed in-house by the team of experts at LPU. This application which is supported on all leading digital platforms allows the faculty to share learning support material in the form of e-content like lecture notes, reading material, audio-video (AV) aids etc. This application can also be used by the faculty to share important and specific academic announcements with their students.</p> <p>4.Remedial and Re-Coup Classes: Apart from regular classes, these special classes were planned and designed with a purpose of helping students to brush up their lessons, clear their doubts before the examinations and bridge gaps in their learning which ultimately helps them to complete their courses within stimulated timelines.</p> <p>5.Self-Learning Material (SLM): Since provision of remedial and re-coup classes was already in place, provision of SLM as created for students who wish to learn in their own time and at their own pace. Since students were already be engaged in attending their regular classes, hence an alternative approach where students can make a balance between attending classes and to follow a self-directed learning approach was created</p> <p>6.Academic e-Resources: University has created special provisions for its students to access massive learning resources available in the library. University has partnered with the service provider, EzProxy to provide online access to library resources and other scientific databases through their smart devices remotely from their home.</p>
3. The period of delay in completion of syllabus (in months).	0
4. The period of delay in conducting exams (in months).	0
